

META-NLP PLUS

NLP PRACTITIONER AND META-STATES PRACTITIONER CERTIFICATIONS

EVERYTHING RISES AND FALLS ON LEADERSHIP;

Leadership competencies are wide-ranging. Many people learn each competency individually from different sources with different approaches over an extended period of time. How do they relate and link? How do you integrate & optimise the learning?

Though this programme does not cover the full spectrum of the Leadership Competency Model, you will specifically learn 3 Core Skills in Leadership that forms the 'Operating System' for human behaviour. These are Communicating & Influencing, Emotional Intelligence and Coaching.

At the core of this Meta-NLP Plus is a Relationship & Communication model. Since Relationship and Communication is a common thread to almost ALL the leadership skills, it makes it even easier for you to learn other leadership skills as well.

Meta-NLP Plus may also be viewed as a tool for Personal Excellence. It is also a tool for the achievement of human potential. Thus learning Meta-NLP Plus allows you to easily assimilate & actualise most, if not all, of the leadership skills that you demand.

With Meta-NLP Plus, you will be able to leverage on your past and future encounters in leadership development. Otherwise you may miss out on the synergistic effect of the various leadership competencies that you have and will learn. The all-encompassing nature of Meta-NLP Plus allows you to create that synergistic outcome from all your skills.

M. MARZUKI MOHAMED

CERTIFIED NEURO-SEMANTICS AND NLP TRAINER

* HRDF CLAIMABLE *

META-NLP

Meta-NLP (Neuro Linguistic Programming) is the art and science of personal excellence.

It is a behavioural technology, which simply means that it is a set of guiding principles, attitudes, and techniques about real-life behaviour, and not a removed, scientific theorem. It allows you to change, adopt or eliminate behaviours, as you desire, and gives you the ability to choose your mental, emotional, and physical states of well-being. With Meta-NLP, you learn how to grow from every single life experience, thus increasing your ability to create a better quality of life. Meta-NLP is a very pragmatic technology based on an ability to produce your desired results, thus allowing you to become proficient at creating your future!

ACCESSING PERSONAL GENIUS

This is a highly experiential program to bring out your personal brilliance and excellence, involving experiential and accelerated learning. A genius is a person with distinguished mental prowess, demonstrated by the ability to reason, plan, solve problems, think abstractly, comprehend ideas, learn and be creative. We have all had moments of genius, when we are in a 'state of flow' but then experienced the frustration when we were interrupted, and lost the moment. Accessing Personal Genius is a training that teaches you to not only how to step into the genius state at will, but how to step out of it, with full confidence that you can return at any time. As a genius you will have a high degree of self-awareness, the ability to access mind-body states of excellence, become more intentional and so walk the talk. However before we can truly be a genius, we must first face our inner dragons, those thoughts and beliefs that appear as internal dialogue and feelings of dread that rob us what good we might do. Once these dragons are named, they can be tamed or slew leaving our path clear to develop high performance in our chosen field. At APG you will learn the theory of Meta-States and the practical applications of Neuro Semantics, including 14 personal enhancing tools that you can use to coach yourself, expand your coaching practice or develop a high performing team.

THE TRAINER

Marzuki is a Certified Neuro-Semantics and NLP Trainer, and Meta-Coach by the International Society of Neuro-Semantics®. He is also the Regional Director for Meta-Coach, Malaysia Chapter and co-authored an internationally published book 'The Change 4'.

Marzuki has successfully conducted many in-house programmes related to NLP & Neuro-Semantic Coaching and Training for corporations and government agencies. He is privileged to have conducted such programmes to many large corporations and many more in the last five years.
